

VIRTUALARMOR  
SECURITY SOLUTIONS

## Refresh

**Refresh:** VirtualArmor programs for enabling our clients and business partner's to migrate their existing NetScreen or other customer premise equipment (CPE), to the industry leading Juniper NetScreen Security Products Portfolio. With the increasing complexity of the Internet and the constantly shifting demands of your employees, mobile workers, business partners and your customers, VirtualArmor is here to help!

**ArmorExchange:** Exchange your existing equipment for the industry leading Juniper NetScreen Firewall/VPN, Intrusion Detection and Prevention (IDP) and Secure Remote Access (SSLVPN).

**ArmorAdvance:** As your business expands or network needs grow, we can help reduce your infrastructure costs with our unique trade-up program and advance your network performance and security solutions. Trade-up your NetScreen 25 for a NetScreen 208.

**Contact VirtualArmor today at [sales@virtualarmor.com](mailto:sales@virtualarmor.com) or call direct at 303-221-4934 for further details about our exciting programs.**
